

ECOMAG MAGNET FILTER

ECOMAG magnet filter is designed to protect boilers, small heat exchanges, washing machine and dishwasher against limescale build-up.

The permanent magnet of the filter allows to prevent the formation of the calcium carbonate on the pipelines and heat -exchangers, and thus extends the service life of the home appliances.

It's suitable for drinking water treatment.

KEY FEATURES

- Reliable protection from limescale without any chemicals
- Compact design and
- Safe for drinking water
- Easy installation with no maintenance needed

made in 
ITALY
